Technical drawing of a road cross-section showing a 10% longitudinal slope. The drawing includes a profile view on the left with elevation data and a plan view on the right showing the road layout. Key features include a 10% slope, a 1.5m wide road, and various elevation points marked along the profile. The plan view shows the road's alignment with a dashed line indicating the centerline and solid lines for the road edges. A north arrow is present in the top right corner.
